HER GREAT SECRET.

Actions Speak—He Was Willing to Read Her Mind.

For many long years the young woman had called upon Ulysses, says the St. Louis Post-Dispatch. She had brought him numberless packages of choice cigarettes, as well as divers specimens of the more expensive cigars. She had repeatedly purchased tickets for various celebrated prize-fights, and after escorting him thither would see to it that he had plenty of lemon cream puffs to munch upon during the intervals of slugging. Many and many an evening she had assisted him in increasing the numerals upon his poor, hard-working mamma's coal and gas bills, and she had seen four several sets of new springs added to the parlor sofa. But hitherto she had not stood up like a woman, and boldly declared her love for him; and requested to be allowed to pay all his expenses in the future, in consideration of his domineering last name.

But upon this special evening in question Ulysses had her dead to rights. In may have been the wretched golf costume in old gold and baby blue that he wore, or the shy grace with which he placed his tiny palm in hers. However, be this as it may, she could no longer restrain herself; but impulsively threw her arms about his frail, shrinking figure and drew him tenderly toward her.

As her lips rose from his she lovingly murmured: "This kiss tells you my secret."

And Ulysses as he furtively removed some plug from his mouth found an opportunity to observe: "What! on my word, my darling, you are a—"

Women nowadays are learning that it pays to be healthy, that it pays to be strong. Weak women make bad wives and worse mothers. A woman need not necessarily become an athlete in order to fit herself for the duties of wifehood and motherhood. If she will obey common sense rules of health, and be sure that the organs that constitute her womanhood are always healthy and strong, she will be a capable and healthy wife and mother. The best medicine for the treatment of weakness and disease of the organs distinctly feminine is Dr. Pierce's Favorite Prescription.

It is the discovery of a regularly graduated physician—an eminent and skillful specialist, Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y.—There are on file at that institution letters of over 90,000 women testifying to the marvelous merits of the "Favorite Prescription." It acts directly on the organs that make wifehood and motherhood possible. It makes them strong and healthy. It cures all weakness and disease. It smooths the way to almost painless maternity. It insures healthy children. All good druggists sell it. Co. N. Y. writes: "I thought I would write you a few lines as I have been taking your medicine and using it in my family. I have just taken another bottle of your 'Favorite Prescription' and it has done me lots of good. I think it is a grand medicine."

The newly-wedded wife, above all other women, needs a good medical book. Dr. Pierce's Common Sense Medical Adviser fills this want. It contains over 1000 pages and 300 illustrations. Several chapters are devoted to the physiology of the organs distinctly feminine. Send 21 one-cent stamps, to cover cost of mailing only, to the World's Dispensary Medical Association, Buffalo, N. Y., for free copy, paper-covered. If a cloth binding is wanted, send 10 cents extra (31 cents in all).

THE SITUATION IN OHIO.

An election is to take place in Ohio in November for State officers and a legislature that will elect a United States Senator for six years to succeed Mr. Hanna, who was appointed to succeed Mr. Sherman. There are five tickets now in the field with the gold Democrats to hear from. The tickets are the Gold Republican, the Silver Republican, the Silver Democrat, the Populist and the Negro Protective party. The Negro Protective party will endeavor to compel the Secretary of State to put Lincoln's picture at the head of their ticket on the official ballot as the party has adopted that as its emblem.

The principal contest is between the Gold Republicans and the Silver Democrats. The gold men are for Hanna for Senator and they are supported by every trust and monopoly in the State. It is charged, also, that the Populist leaders are playing into the hands of Hanna, who paid many of them to put a ticket in the field with the redoubtable Coxey, of "get off the grass" notoriety for Governor. The Gold Democrats, who are also Hanna men, may put a ticket in the field for a blind if they think they can strengthen the Hanna party by doing so. otherwise they will vote direct for the Gold Republicans.

The campaign is quite lively with the odds in favor of the Gold Republicans, who have abundance of money and are using the Federal patronage for all it is worth to elect their ticket. The State is crowded with speakers. Secretary Sherman is to address the citizens and President McKinley is billed for a tour through the State on a Pullman car, from the rear end of which he will speak at every railroad village.

The gold men are confident of success, as Mr. Hanna says if they cannot carry the State one way they will another, and they know what that implies. There is no evidence that he is colonizing the State, but, as in the Presidential election, he may abnormally increase the vote by other methods, and his defeat would be little less than a miracle.

SENSATIONAL BREACH OF PROMISE CASE.

Away down in Maine, at sweet Auburn loveliest village of the plain, Arthur S. Melcher, a man 50 years of age, buried his wife in May, 1894. Miss Louise M. Dingley, a niece of Congressman Dingley, within a week after the death of his wife, wrote the bereaved widower several consoling letters, in which she referred feelingly to the virtues of the dear departed, knew there must be an aching void in the bosom of the bereaved, and promised "Arthur dear" to do all she could to fill that void. In a few weeks Miss Dingley, according to Melcher's statement, wooed and won him, and she was to fill the void by marrying him when Mrs. Melcher had been dead a year. But Miss Dingley, who is only 30 years of age, proved to be as fickle as she is fair. Notwithstanding he gave her a diamond ring with the date set for the wedding engraved thereon she met a Mr. Hadley of Los Angeles, California, and permitted him to lead her to the altar at Boston only a few days after she had parted affectionately with Melcher in Maine. Now the doubly bereaved Melcher sues the lady for breach of promise, and the case is being tried in the court at Auburn. That it is creating a sensation it is unnecessary to say, as Miss Dingley's letters to the widower are read in open court, and it is very probable that the widower will be given damages to soothe his wounded affections and fill the aching void.

The Attorney-General of California is going to Washington to endeavor to convince the Supreme Court of the United States that California should have the right to punish, as the law provides, persons convicted of murder in that State. Counsel for Durrant and other murderers under sentence of death in California, allege that their clients were not proceeded against as the Constitution provides, and, though convicted of murder, should not be punished for their crimes. The Supreme Court of California reviewed the proceedings in those cases and affirmed the judgments of the lower courts, but the lawyers for the condemned culprits think they can get the black robed court at Washington to reverse them.

A COMPANY has been organized in New York with \$10,000,000 capital to manufacture and operate electric carriages. It will use an improved storage battery and run cabs and wagons all over the city without horses. Mean-time horses are said to be coming in demand and it is predicted that they will bring good prices within a few years. Matched carriage horses are now said to be worth from six to nine hundred dollars a span in many of the large cities.

PERS FALLS, a dissolute white woman, was lynched by negroes in the Virginia mountains, six miles from Cowan depot, Virginia. The woman had not associated with her own race for years. She was of little worth, and although she chose negroes for her companions, the authorities are determined to make an example of the lynchers as they will not tolerate the lynching of a white woman by negroes.

COMMUNICATED.

Mr. Evans Replies to Mr. Osburn's Queries.

R. S. Osburn, Esq., President of the Honorable City Council, Reno: Sir:—Referring to your so-called answer to my questions, I wish to respectfully call your attention to the fact that you have answered just one of the questions I asked. You have submitted, in an attempt to answer, a memorandum given you by a Sacramento hardware man. That memorandum distinctly states as follows: "Your honorable body has not yet arrived at any positive decision as to what you really want, and in the absence of any survey or engineer's data, I can give you but a very rough estimate."

Now I am prepared to put in my guess as against his that the proposed plant to provide water for a city of 20,000 inhabitants, will cost at the least \$300,000, and it is more likely to exceed that amount than to run short of it.

But, what I particularly desire to have from you is accurate information of the sizes of pipe and the kind that you propose laying from the source to the city; and then to know what size shall be laid in each street, so that every inhabitant may know at a glance whether his street is to be given a better supply than it has now, and whether it is to have any supply at all.

The present company has over fourteen miles of street mains now laid and there are several localities that they do not reach, and if you propose to lay only twelve miles, then many streets must go without any city water at all. How about this?

Now I quote from the Incorporation Act: "The water supply herein referred to shall be sufficient in volume of pure or wholesome water to supply a population of 20,000, and the water mains shall be in strength, durability and capacity accordingly." I do not consider any of the sizes of pipe suggested by our Sacramento friend as of sufficient strength and size to accomplish this according to the letter or spirit of the law, and on mature reflection, I do not think that \$500,000 would be an excessive estimate.

The only question you have answered of mine is the one giving the pressure expected on some of the pipes in the city, but even that answer is not sufficiently explicit for the people to understand, and where the pressure will be fifty pounds per inch and where it will be forty.

Now to answer you questions in order.

1. I have always fought shy of mortgages on my property, and I do not now care to have my property incumbered to satisfy the demands of a few visionary officials who are attempting something, the end of which has not been well considered, and which they have not the capacity to run.

2. I have heard no complaint from my patrons on account of my water service, but if the Honorable Mayor has caught any microbes from the said water, I will take pleasure in having him analyzed, and remedy the matter at once.

3. The matter of income is my personal concern.

4. Is answered above in my answer to No. 2, but I am willing to wager that if any Indians have been washing their clothes in my water that the same Indians and the tramp tourists who happen along will be doing the same act in the city source of supply, if such a thing ever exists.

I renew my request for specific information, such as I asked for, and will not accept a few lamp guesses as being worth anything in the present line of argument.

J. N. EVANS.
Reno, Nev., October 2, 1897.

A Daring Robbery.

The store of J. A. Blossom at Battle Mountain was burglarized at an early hour last Thursday morning. Entrance was gained to the store by climbing over a transom and a door was then pried open. The three burglars had been at work several minutes before the two men who sleep in the store were awakened. They quickly dressed and hurried out a side door, this frightened the burglars, who tried to make their escape but were headed off as they came out of the store and at the point of a revolver were ordered to halt. They showed fight and one of them was shot in the hip and fell. During the confusion that followed the shooting and arrest of the injured man, the other two escaped. At day-break, Indian trappers were put on the track and Constable Gomez followed the Indians. A quantity of jewelry and other valuables were found upon the men, but considerable of the booty had been lost or thrown away.

The two men had a hearing before Justice Hagar and pleaded guilty and were held to appear before the Grand Jury. The men that was shot will recover, although seriously wounded.

THE SUNSET ROUTE CLOSED.

All Trains to Pass Over the Central Pacific System.

The rumor that the famous Sunset Route of the Southern Pacific by way of El Paso would be closed indefinitely and the traffic sent over the Ogden Route has become a fact and within a few days the passengers and freight formerly traveling over the Sunset Route will pass through Ogden.

The Sunset Route with its line from New Orleans to Los Angeles will be interfered with by the many cases of yellow fever now raging in the South and necessarily the stopping of those trains out of New Orleans with freight and passengers from New York by way of steamer and neighboring points and causing these to come over the Union Pacific into Ogden and on to the coast by way of the Central Pacific. The close traffic arrangements made by the Central Pacific with the Union Pacific will enable that road to do as well as it formerly did by way of the Sunset Route.

This change will last for months and possibly for years, thus working to a good advantage for Ogden. Many people never having seen this country before, will have the opportunity of so doing, while the freight to be shipped this way will be in very large amounts, necessitating extra trains. The regular passenger trains now running will no doubt be equal to the demand, although the cars will have no room to spare and it may be possible that some extras will be run.

The business of the Southern Pacific road from points northwest of New Orleans on the lines will not be affected by the change to go into effect, but it is safe to say that part of the traffic is hardly a half of the full business transacted by the company.

What is not the force of employees of the Southern Pacific Company at Ogden will be increased as yet had to tell, but the crews employed at present will think of good times for a while at least—Ogden Standard.

THE WATER ANALYZED.

Professor Wilson Submits His Report to the City Council.

On Friday Councilman Ryland procured a quantity of water from the spring which has been found at the site, where the Board of City Trustees are at present experimenting with a view of obtaining a sufficient quantity of water for town use, and at Mr. Ryland's request Professor N. E. Wilson, chemist at the University Experiment Station, made an analysis and his report is as follows:

Reno, Nev., Sept. 25, 1897.

Mr. Richard Ryland, Reno, Nevada:—The sample of "new water works" sent by you has been analyzed and found to contain:

Free ammonia, 0.05 parts per million.
Albuminoid ammonia, 0.03 parts per million.
Chlorine, 0.55 grains per gallon.
Total solid matter, 7.00 grains per gallon.
Of which there are fixed or mineral solids, 4.00 grains per gallon, and volatile or organic solids, 3.00 grains per gallon.

Class, 1. Very Respectfully,
N. E. WILSON,
Station Chemist.

In the official interpretation of water analyses Class 1 is given as follows: Waters yielding from 0.00 to 0.05 parts per million of albuminoid ammonia. This class comprises the most carefully prepared distilled waters; i. e., both natural (i. e., deep spring waters) and artificial; i. e., such water as has passed through a good "silicon-carbon" filter in good working order. Such waters cannot be objected to organically.

Wines' Wines' Wines!

Attorney General Fitzgerald of California will go to Washington on Monday to oppose in the United States Supreme Court the application made in behalf of Theodore Durrant and other inmates of the State Prison under sentence of death. Durrant will be represented by Eugene Duprey.

An idea of the rushing business the railroad is doing just now may be known by the fact that at 11 o'clock this morning there were ten east-bound and four west-bound trains on this part of the division, between Wadsworth and Carlin. At this time last year there were only eleven crews running—now there are twenty-one.—Silver State.

Charles McFarlin, who was employed for a number of years on the Central Pacific, running out of Wadsworth, is now located at Butte, Montana, where he has a good position in the machine shops. Charlie is a Reno boy, and while we are sorry that he found it necessary to leave the State of his nativity, we are pleased to note that he has benefited himself by the change.

W. I. Woolcock, representing Tilman & Bendle of San Francisco, wholesale grocers, is in Reno in the interests of the firm. Mr. Woolcock represents the spice department of the house. He is a native of Humboldt county, Nevada, but has not lived there for the past six years, his business calling him to other fields. We recommend Mr. Woolcock to the business community of this section.

Block & Clausen's Lunch Counter window was a perfect dream of good things last night. There was a fine dressed lamb, embellished with green peas and red apples, great slices of ham, game, fish, porter house steaks and other delicacies to tempt the hungry. Jim Christiansen, the caterer, was the artist and if a good dinner will make one satisfied with oneself and the world, call on Jim and talk to him confidentially.

The Palace Dry Goods and Carpet House offers at special sale this week 75 dozen ladies grey and white ribbed, heavy fleeced vests and drawers, the 35-cent quality at 25 cents each. This underwear is made of a fine quality Egyptian cotton, heavily fleeced, and finished as well as any high grade underwear, and is just the thing for cold weather. The Palace carries a complete line of ladies capes and jackets, and Misses and children's outer garments. The prices are right, and the best way is to come and investigate for yourselves.

AN OPEN LETTER.

Chairman Osborn answers J. N. Evans on the Water Question.

RENO, Nev., Oct. 2, 1897.

J. N. Evans, Esq., Reno, Nev.

DEAR SIR: In reply to your communication to the City Council of the city of Reno, through the columns of the GAZETTE of the 1st instant, I beg to say that it seems to me that the best reply to your series of questions is to refer you to the law governing the board, the question in issue, and would respectfully ask that you carefully read the law, and more particularly Section 35 thereof.

"In case due authority is vested in said City Council, in the manner as provided in the last foregoing section thereof, to issue bonds for the purpose named, the City Council shall proceed to publish such fact and invite written proposals with plans and specifications to construct such water system for the city of Reno, and the person or corporation offering to provide the best permanent system of water supply for the least number or amount of said bonds, shall be deemed the lowest or best bidder; provided, that the Council may reject any and all bids not readvertise as provided by law in similar cases. The water supply herein referred to shall be sufficient in volume of pure or wholesome water to supply a population in said city of 20,000, and the water mains shall be in strength, durability and capacity accordingly; provided, the right of way to establish such system of water works through the streets and alleys, or other lands belonging to said city, be granted to any person for the purposes above named free of charge. All money derived from the sale of bonds herein provided for, remaining over after paying all claims incident to the construction of the aforesaid water works, shall be turned into the general fund of the city."

A careful estimate has been made by a competent person, to the City Council, which is on file in the clerk's office, and was published at the time, which I again call your attention to: "RENO, Nev., Aug. 23, 1897: City Council, Reno, Nevada. Gentlemen: At the request of some members of your Board, and through the courtesy of Mr. Eubanks, who kindly accompanied me, I have taken a hasty look over the proposed pipe line to supply Reno with water. I understand from members of your board that the proposed line will be about seven miles long and will have a head or pressure of 212 feet; I also understand from some figures that have been furnished me, that there will be about twelve miles of distributing pipes of various sizes throughout the city.

"I take it that the board is desirous of getting a preliminary estimate of the probable cost of a water system, that will not only supply your present wants, but that will be equal to the demands of a continued growth and prosperity such as you have experienced in the past number of years."

"Your honorable body not yet has arrived at any positive decision as to what you really want, and in the absence of any survey or engineer's data I can give you but a very rough estimate."

"A water system varies so greatly in cost, in accordance with the supply desired, and the temporary or permanent looked to in deciding on the character of work; I have learned that a twelve-inch pipe is at present supplying the town, and that it is desired to deliver at least double the quantity of water now supplied.

"For the purpose of arriving at the probable size necessary, I would say: twelve-inch pipe with three feet per second, vel. disc. 142 cubic ft. per sec., or 1,500,000 gal. in twenty-four hours. Fifteen inch pipe, three feet sec., 225 cub. ft., or 2,400,000 gal. in twenty-

four hours. Eighteen inch pipe, three feet per sec., 320 cub. ft., or 3,400,000 gal. in twenty-four hours.

"In the distance of seven miles the loss by friction will be about as follows: On the eighteen inch pipe, 100 feet; on the fifteen inch pipe, 120 feet.

"This would give you a pressure in the city of 60 pounds per square inch for the 18-inch pipe and 40 pounds per square inch for the 15-inch pipe. These are minimum figures and in actual practice are likely to be more rather than less.

"Without a plan of your city and a thorough survey, laying out the mains and laterals, it is almost idle to guess at the probable cost; I, however, make you two estimates, one taking 5-inch pipe as the average size for the 12 miles of service, the other taking 4 inch as the average.

"Estimate No. 1—3 1/2 miles 18-inch No. 12 pipe; 3 1/2 miles 18-inch No. 10 pipe; 12 miles city services, 4-inch average—\$100,000.

"Estimate No. 2—3 1/2 miles 18-inch No. 12 pipe; 3 1/2 miles 18-inch No. 10 pipe; 12 miles city services, 4-inch average—\$85,000.

"Estimate No. 3—3 1/2 miles 18-inch No. 14 pipe; 3 1/2 miles 18-inch No. 12 pipe; 12 miles city services, 4-inch average—\$79,000.

"Estimate No. 4—3 1/2 miles 15-inch No. 12 pipe; 3 1/2 miles 15-inch No. 10 pipe; 12 miles city service, 4-inch average—\$81,000.

"These estimates are for the pipe laid in the ground and back filled.

"To make an estimate as much lower as you may desire, you have but to reduce the size of pipe and thickness of material.

"Respectfully submitted,

"OF SCHAW, INGRAM, Batcher & Co., "Sacramento."

Now Mr. Evans, seeing that we have answered your questions freely will you kindly answer us the following questions also through the columns of the GAZETTE?

1st. Why is it, that you do not want a new water system?

2nd. Is it true, that you are selling water yourself, and afraid a new water system will reduce your income?

3rd. How much income do you derive monthly or annually from the sale of your water?

4th.—Is there any truth in the report that the water which you sell is being vitiated and polluted by Indians washing their clothes thereto.

Yours respectfully,

R. S. OSBORN,

President of the Board of City Council, City of Reno.

Will Race Next Week.

Carson's races during the week have created so much interest that the Directors of the Association have granted permission to allow them to go on for another week or such time as the horsemen care to continue them. With this in view the track has been leased to Andy Todd, but as the Association is a member of the National Trotting Association the races will have to be conducted under the National rules and supervision of the officers of the local association.

It is anticipated that next week's program will be fully as good as that of the past few days, and if the interest is kept up the horsemen will keep the races going until the snow flies.

ELECTION NOTICE.

UNDER AND BY VIRTUE OF THE ACT, passed at the special session of the Legislature of the State of Nevada, entitled "An Act to incorporate the Town of Reno," approved March 28th, 1897.

NOTICE IS HEREBY GIVEN:

That on Thursday, the seventh (7th) day of October, A. D. 1897, a special election will be held in the different wards of the City of Reno, Washoe County, Nevada, at which election there will be submitted to the qualified electors of said City of Reno, as shown by the last preceding official registration, the question as to whether the City of Reno, in and for the County of Washoe, shall issue bonds of the City of Reno, in the amount of one hundred and thirty thousand (\$130,000) dollars, payable in annual installments between and including the sixth and twentieth years from the date of issuance, bearing interest at the rate of six per centum annually, both principal and interest payable at maturity at the office of the City Treasurer of said City of Reno, for the purpose of procuring water and the erection of water works for the City of Reno, within or within the limits of the limits of the said City of Reno, as may be deemed most advisable by the said City Council.

Also the question as to whether the City of Reno may issue bonds of the City of Reno, in the amount of twenty thousand (\$20,000) dollars, payable in annual installments between and including the sixth and twentieth years from the date of issuance, bearing interest at the rate of six per centum annually, both principal and interest payable at maturity at the office of the City Treasurer of said City of Reno, for the purpose of procuring water and the erection of water works for the City of Reno, within or within the limits of the limits of the said City of Reno, as may be deemed most advisable by the said City Council.

At the said special election the different propositions included in the said questions will be submitted to the said electors in the form following, to-wit:

1.—Shall Reno be bonded in the sum of \$130,000, for the purpose of procuring water and erecting water works?	YES.	NO.
2.—Shall such bonds be payable in equal annual installments between and including the sixth and twentieth years from their date of issuance together with interest at the rate of six per centum per annum, payable annually at their maturity at the office of the City Treasurer of Reno?	YES.	NO.
3.—Shall Reno be bonded in the sum of \$20,000 for the purpose of establishing an electric light plant?	YES.	NO.
4.—Shall such bonds be payable in equal annual installments between and including the sixth and twentieth years from their date of issuance together with interest at the rate of six per centum per annum, payable annually at their maturity at the office of the City Treasurer of Reno?	YES.	NO.

At the special election the polls will be open until six o'clock P. M. excepting that not more than one hour for recess may be taken at any time before four o'clock P. M. upon proclamation thereof being made. At the said special election the ballots to be used will be furnished to the electors by the election boards and will conform in design as nearly as practicable to those required by the laws of Nevada at general elections.

At the said special election the polls, inspectors and clerks will be as follows:

FIRST WARD—Polls at Court house. Inspectors: J. N. Ballester, Thomas Withersed, and Sam McGee. Clerks: T. R. Crawford and S. W. Upson.

SECOND WARD—Polls at Sessions house, corner Second and West Streets. Inspectors: L. L. Crockett, I. B. Marshall and T. H. Shaw. Clerks: O. H. Perry and John Robb.

THIRD WARD—Polls at J. J. McCormack's marble works. Inspectors: C. J. Kienast, J. V. Sears and E. Stevens. Clerks: W. S. Beard and A. L. Longley.

FOURTH WARD—Polls at Engine House. Inspectors: A. G. Fletcher, Dan F. Keefe, and L. A. Ballester. Clerks: Wm. Webster Jr., W. A. Fogg.

FIFTH WARD—Polls at Old Fellows Building, Chestnut street. Inspectors: John Rowman, E. B. Coffin and E. W. Higgins. Clerks: S. Williams and Fred Morrill.

By order of the City Council of the City of Reno.

SUMMONS.

IN THE SECOND JUDICIAL DISTRICT Court of the State of Nevada, in and for Washoe County.

The State of Nevada sends to Emma Peterson Greeting:
You are hereby required to appear in an action commenced against you as defendant by J. F. Peterson as plaintiff in the Second Judicial District Court of the State of Nevada, in and for the County of Washoe, and answer the complaint herein within ten days after the service on you of this summons (exclusive of the day of service), if served in said county, or twenty days, if served out of said county, but within said District, and in all other cases forty days; or judgment by default will be taken against you according to the prayer of said complaint. The action is brought to recover judgment and decree of this Court dissolving the bonds of matrimony heretofore and existing between you and said plaintiff, upon the ground of willful desertion for a period of more than one year to-wit: ever since on or about the 8th day of November, 1895, and against his will, wish or consent. All of which will more fully appear from the complaint, which is on file in the office of the Clerk of said Court, at Reno, in said county, and to which you are especially referred. And you are further notified that if you fail to appear and answer said complaint, the said plaintiff will apply to the Court for the relief demanded.

In testimony whereof, I have hereunto set my hand and affixed the Seal of said Court, at Reno, this 16th day of September, A. D. 1897.

Attorneys for Plaintiff.

SUMMONS.

IN THE JUSTICE COURT OF RENO Township, in and for the County of Washoe, State of Nevada.

The State of Nevada sends greeting to You are hereby summoned to appear before me, at my office, in Reno Township, in the County of Washoe, on the 14th day of November, A. D. 1897, at 10 o'clock A. M., to answer upon the complaint of C. G. Colombo, who sues to recover judgment against you for the sum of \$100, alleged to be due on your promissory note, said note bearing date March 20th, 1894, for \$100, bearing interest at the rate of 6 per centum per annum, said note being filed and constitutes a part of said complaint, all of which will more fully appear from the complaint on file. And you are further notified that judgment will be taken against you for said amount, together with costs and damages, if you fail to appear and answer.

To the Sheriff or any Constable, executing legal service and due return thereon. Given under my hand this 16th day of August, A. D. 1897.
J. J. LINN,
Justice of the Peace for said Township.

ABOUT EYEBROWS.

They Plainly Reveal the Traits in One's Character.

The whole nature of a person, according to a physiologist, is indicated in the eyebrows. Eyebrows that are gracefully arched and elevated show magnanimity and identity, and, when much elevated, credulity; those that are depressed over the nose indicate a straight, show penetrating power of observation. It is also said that one perpendicular wrinkle over the nose and between the brows shows carefulness in small matters, while two or three wrinkles show conscientiousness.

Rough eyebrows show temper as for music, especially if thick and lowering, while the art lover of either sex has eyebrows that are long and tapering.

One other sign which is sometimes found in a man's face, though oftener in a woman's, is the dimple. Everyone loves a dimpled cheek, and the fact seems to be that dimples, whether in cheek or chin, mellow and sweeten the disposition. They show a strong desire to be loved and appreciated, as well as a wish to be agreeable. And they also show a keen appreciation of beauty in the opposite sex.

SUMMONS.

IN THE SECOND JUDICIAL DISTRICT Court of the State of Nevada, in and for Washoe County.

The State of Nevada as to Dan Wm. Taylor greeting:

You are hereby required to appear in an action commenced against you as defendant by Mrs. Dan Wm. Taylor as plaintiff in the Second Judicial District Court of the State of Nevada, in and for the County of Washoe, and answer the complaint therein within ten days after the service on you of this summons (exclusive of the day of service), if served in said county, or twenty days, if served out of said county, but within said District, and in all other cases forty days; or judgment by default will be taken against you according to the prayer of said complaint. The action is brought to dissolve a decree dissolving the bonds of matrimony heretofore and now existing between the plaintiff and defendant, upon the grounds that the defendant, on or about the — day of June, A. D. 1897, committed adultery with one Myrtle Fletcher at the town of Elko, County of Elko, and State of Nevada, and upon the further ground that the defendant did on or about the — day of June, A. D. 1897, commit adultery with one Emma Gleason at the town of Elko, and State of Nevada, and on the further ground that defendant did on or about the — day of June, A. D. 1897, commit adultery with the said Myrtle Fletcher in the city of Salt Lake County of — and State of Utah, and that plaintiff is decreed to be restored to her maiden name, Emma Fraser. All of which will more fully appear from the complaint, which is on file in the office of the Clerk of said Court, at Reno, in said county, and to which you are especially referred. And you are further notified that if you fail to appear and answer said complaint, the said plaintiff will apply to the Court for the relief demanded.

In testimony whereof, I have hereunto set my hand and affixed the Seal of said Court, at Reno, this 28th day of August, A. D. 1897.

Clerk of the Second Judicial District Court of the State of Nevada, in and for Washoe County.
A. B. BONHAM, Deputy.

"I see Henderson is back from Klondike with a barrel of money. He must have struck a rich mine."
"No, he didn't do any mining at all. He took a supply of Piper Heidsieck Plug along and sold it to the miners."

The Plug is larger—Everywhere among tobacco chewers the recent enlargement of the Piper Heidsieck Plug is a matter of common talk, and universal congratulation. More than one-third bigger than before, and better than ever, the tobacco with that delicious champagne flavor promises to be the most popular "chew" in the whole wide world.
